Dear Hiring Manager,

As a passionate and skilled software developer, I bring a strong proficiency in JavaScript, HTML, CSS, Node, and various front-end development tools. My expertise includes React.js, where I have demonstrated the ability to create high-quality software with intuitive UIs and efficient state management. I am well-versed in project structure, scalability, design patterns, and best practices.

In my previous roles, I have successfully completed projects that required a blend of technical skills and creative problem-solving. These include:

- **Muffin Design**
- **KPIT(HRMS), EventGreen Club**
- **Fenix, QBD, SPIRRI**
- **CCR**

I am confident that my technical skills and passion for creating impactful web applications align with your team's goals. I am eager to bring my expertise and contribute to the success of your projects. I look forward to the possibility of discussing how my skills and experiences make me a strong fit for your team.

Sincerely,

Nikhil Patil

About me

Passionate and skilled software developer with a strong proficiency in JavaScript, HTML, CSS, Node, and various front-end development tools. Experienced in React.js and its core principles, as well as popular workflows such as JSX and Redux. Demonstrated ability to create high-quality software with intuitive UIs and efficient state management. Proficient in project structure, scalability, design patterns, and best practices.

Tools

HTML, CSS, Node, Javascript, Typescript, Webpack, NextJs, React, Angular, MongoDB, Material UI, Bootstrap, Jest, CI/CD, Docker, GIT, VS Code.

Skills

- Strong proficiency in JavaScript, and ES6, including DOM manipulation and the JavaScript object model and typescript.
- Command over HTML & CSS and its Preprocessors.
- Thorough understanding of React.js and its core principles.
- Experience with popular React.js workflows (such as JSX, and Redux)
- Understanding of class and functional components.
- Understanding of react's hooks.
- Webpack config and its features
- CI/CD, Docker, Github, VS Code, Jira, and Linux.

Education

B.sc(Computer Science)

Collage of computer science • pune, maharashtra

06/2019

Projects

Eccentric PVT LMT | Muffin Design

2019 - June | 2020 - Feb.

- Integrated UI using Angular 8, ensuring seamless user experience.
- Developed a template-driven contact form for efficient communication.
- Implemented navigation using Angular Router for smooth page transitions.
- Created responsive user interfaces for optimal viewing across devices.

Roxiller System PVT LMT | KPIT(HRMS)

2020 - Mar | 2020 - Des.

- Replaced UI with React functional components for enhanced performance.
- Implemented routing with react-router-v5 to enable lazy loading of pages.
- Configured Redux for global state management.

- Established a well-organized folder structure for efficient state management.
- Designed intuitive user interfaces to improve accessibility.

Roxiller System PVT LMT | EventGreen Club

2021 - Jan | 2021 - Des.

- Contributed to the organization and execution of over 1000 sessions for the EventGreen Club, catering to adult participants.
- Utilized Angular Material for designing visually appealing cards and various other components.
- Employed Angular 17 for enhancements to make the development experience even more productive.
- Implemented routing for Authentication and authorization.

INDPRO PVT LMT | Fenix

2022-Jan | 2022 - May.

- Developed a deeply nested routing architecture for a scalable application.
- Implemented lazy loading for components to optimize performance.
- Configured TypeScript and Prettier for clean and consistent code.
- Set up Chrome Developer Debugger configuration for seamless debugging in VSCode.

INDPRO PVT LMT | QBD

2022-Jun | 2023 - Mar.

- Update the project structure according to **Angular 16** conventions.
- Angular's template syntax.
- Utilize Angular CLI for generating components, services, and modules.
- Configure Angular's build system (e.g., Angular CLI) for optimizing build size and performance.

INDPRO PVT LMT | Spirri

2023-Mar | 2023-July.

- Rewrite the wellness and mindfulness web application using **Angular 16** and its features.
- Angular's built-in routing system.
- Implement TypeScript for type safety and improved code maintainability.
- Utilize Angular Material for styling and UI components, or integrate Tailwind CSS if preferred.

DigiAlpha PVT LMT | CCR

2023-July | 2023-Nov

- Integrated ag-Grid to efficiently manage and display large sets of tabular data, enhancing the system's performance and providing users with a seamless data viewing experience.
- Adopted Redux for state management, establishing a centralized and predictable state container that facilitated data flow and communication between various components, leading to a more maintainable codebase.
- Leveraged class components to encapsulate and organize functionality, contributing to the modularity and scalability of the ERP project.
- Contributed to the documentation of codebase and development processes, ensuring knowledge transfer within the team and supporting ongoing maintenance and future development efforts.

Professional Summary

In summary, my three years of experience as a front-end developer have equipped me with a well-rounded skill set and a genuine passion for creating impactful web applications. I am eager to leverage my expertise and contribute to projects that not only delight users but also drive business growth. I would be thrilled to have the opportunity to work with you and make a positive impact together.
